

**Pressure accessory,
Square Indicator LED
Product code AC46**

**Pressure measuring system accessory,
Assembled with pressure transmitter, output 4...20mA
Disadhesion from DIN 43650A plug**

General features

- Square indicator LED
- It should be assembled with DIN 43650A plug only
- Only for 4...20mA output signal
- Local read-out
- Available power supply 12...30Vdc

Application area

- Any place where you want to see all measuring pressure values on site
- All kinds of production lines
- Using power supplied to the pressure transmitter without a separate power supply

Installation purpose

This square indicator can directly visually check the pressure at the site and is operated using power supplied to the pressure transistor without a separate power supply. However, it is applicable only when the output of the pressure transmitter is 4...20 mA, and the electrical plug used is only applied to 4-pin DIN 43650 products. The signal transmission accuracy of this equipment is less 0.2%.

Specifications

Electrical connection

a/w DIN 43650A, 4-pin plug

Accuracy

≤ 0.2%

Display

-1999...9999 by LED

Sampling rate

3 times / sec

Material of case

Plastic

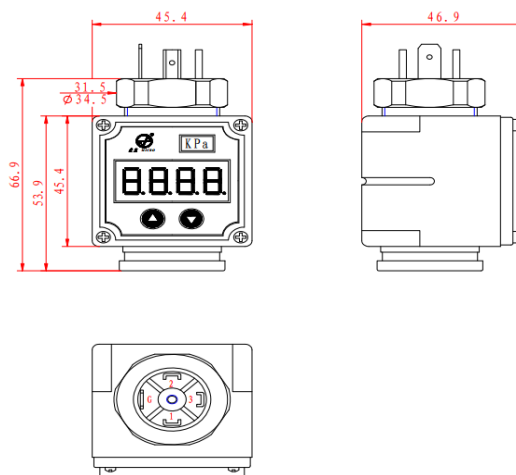

Weight

70g

Square Indicator LED, product code AC46
