

**Pressure accessory,
Pulsation dampner / snubber
Product code AC31**

Pressure measuring system accessory,
Pressure gauge overrange protector
and made of stainless steel

General features

- Accessories for pressure instrument
- Solution for hydraulic shock and pulsation of the medium

Application area

- Stainless steel version for aggressive media, even in aggressive environments
- Process industry: Machine building, general plant, construction, chemical industry, petrochemical industry, power plants, mining, on-/offshore and environmental technology

General specification

Material

Case: St. steel 316 (1.4571)
Screw: St. steel 316 (1.4571)
O-ring: Viton
Regulation spindle: St. steel 316 (1.4404)

Connection to the pressure measuring instrument

G1/2" B female per EN 837-1/7.3

Process connection

G1/2" B per EN 837-1/7.3

Other connection request: G1/4"
G3/8"
M20 x 1.5
NPT 1/4"
NPT 1/2"

Description

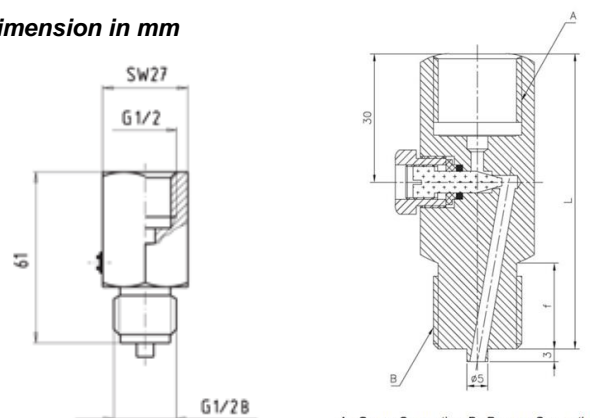

Surface: steel phosphated, steel raw
Media: liquids, gases and vapours
Max. temperature: 120 °C

Pulsation dampner, product code AC31

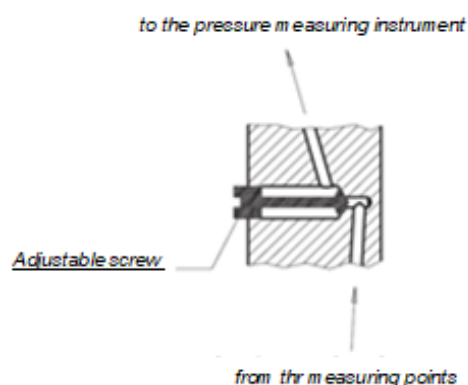

Drawing

Dimension in mm

A : Gauge Connection, B : Process Connection

Operating principle

DAHO
