

**Pressure accessory,
Syphone tube
Product code AC37**

**Pressure measuring system accessory,
protecting from pulsation and heating
and made of stainless steel**

General features

- Protecting from pulsation and heating
- Made of all stainless steel
- Bear max. pressure 25 bar
- Apply for general industry, high temperature process line.

Application area

- Syphone tube protects pressure measuring instruments from pulsation in the media, and from excess heating. It is cooling element for fluids, gases and vapour in pressure measurement.

General specification

Type

Winding, pig tail (DIN 16282 from D)

Material

Stainless steel, SUS316

Connection

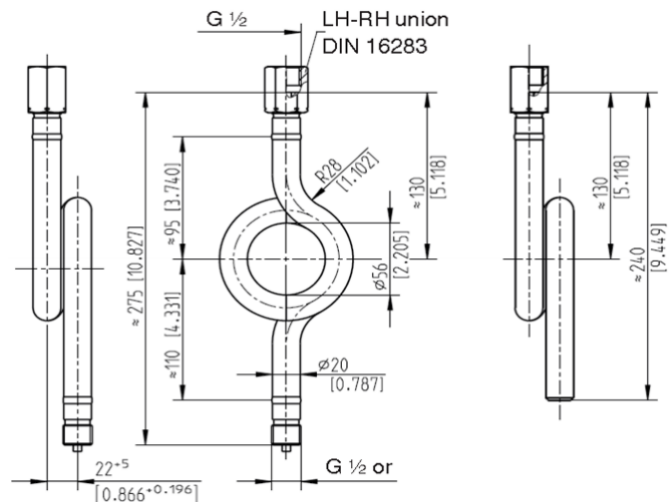

Gauge connection (female) : G1/2"
Process connection (male) : G1/2"
R1/2"
various flanges

Max. pressure
up to 25 bar

Weight
approx. 1,180g

Syphone. product code AC37
